

Greetings Western Canadian Engineers!

As some of you may know, this year's WESST Retreat and Olympics was a huge success, filled with beer, fun and games, syrup, and more beer. We had the chance to enjoy ourselves and get to know each other, as well as raise and discuss some important issues during the WESST Retreat plenary session.

This year, we will do everything we can to delve in and optimistically address the issues identified at WESST Retreat. As your WESST Executive President, VP Finance, and VP Communications, Will Fraser, Sean Walsh and Shahrzad Pedram respectively, we are responsible to follow the procedures outlined in the WESST Policy Manual. Moreover, we will be looking into starting an endowment fund, updating all official WESST documents, and increasing the effectiveness of WESST by increasing periodic communication in between Administrative Council meets.

Currently, we are creating a student fee report to be completed in time for WESST Retreat 2008 and intend to present a potential outline at Congress 2008. We ask that if you would like to contribute in any way on behalf of your student society, to contact us soon.

We would also like to mention that "the Administrative Council has ultimate control over the actions of the Executive Council," as stated in Article 8 of the Constitution. Thus, we are requesting that if there are any issues or ideas you would like to discuss before Congress about the up coming year, please contact us, and we will do our best to consolidate any concerns you may have.

We wish you the best of luck and look forward to seeing you at Congress in the new year.

Best Regards,

Your WESST Executive elect

President:
Will Fraser
